

## Testimonials

**"I recommend Nutrazon for everyone"**

**Hi. My name is Juanita. I have been a diabetic since 1972 and I am 71 years old. I have been taking Nutrazon for 4 weeks now. I have been off insulin for 2 weeks and am doing great.**

**I was also unable to sleep at night. Now I sleep fantastic every night. I am able to walk better and have better balance. I feel much better every day. I recommend Nutrazon for everyone.**

**- Juanita K, MO**

**"Hi, this is Sharon from Centerville, Iowa... a retired quality control inspector. For the last 15 years, due to Fibromyalgia, I suffered with discomfort in all my muscles, which can be almost unbearable at times...it also affected my short term memory which caused early retirement....Then I was introduced to Nutrazon, and within 2 days my symptoms diminished considerably. Now, three months later as my body has gotten back into balance, the discomfort is almost gone. Because of my fantastic results and the belief that this product can help others like me, I am building a lucrative business with Nutrazon...the best product and company in the world. Thank you Nutrazon for giving me back my life!"**

**"Hi, my name is Randy, and I am from South Carolina. I know you have probably heard me say that since my wife and I have been drinking Nutrazon, we have had no more chest discomfort or shortness of breath. Well, my wife decided that she was not sure if she was getting anymore benefit from drinking Nutrazon, so she stopped taking it. Within a few days, she was complaining about that familiar tightness in her chest. We know from experience this means a heart attack is getting ready to happen. (She had a heart attack in 1999).**

**"She was very quick to get back to the fridge and get a couple of ounces of Nutrazon. Imagine the money we are saving by not having to get \$115 a week Chelation treatments or the need for a Triple By-Pass surgery. In addition, the cost does not even take into account the discomfort and suffering we avoid, or the fact that we sleep so much better than before and have much less effects**

from stressful situations.

**We will be drinking Nutrazon the rest of our lives."**

**"My name is Jim and I live in Missouri.**

**For over 8 years I was plant manager of a company in charge of over 120 employees. I have been working full time from home now for over 16 years. Before Nutrazon, I was very hard on my body. I played as much as 30 games of softball per week with a traveling team. I have dislocated both shoulders twice and have not been able to lift anything with my left arm for a 6 month period. I had that torn, grinding, gritty feeling in my shoulders.**

**Today, Nutrazon has given me my life back. No more gritty feeling in my shoulders, no more joint discomfort and more energy than I know what to do with. I now have a full range of motion again and a great deal more flexibility. My sleep pattern has changed from what was very little sleep to the best sleep I have ever had in my life. By just sharing my results with people about this amazing product I now earn a full time income.**

**I will never stop taking Nutrazon.**

**Thank you."**

**"My name is Emily from Columbia, SC and I work as a program assistant at the library and a loan originator (residential and investment mortgages). I was diagnosed with Fibromyalgia 12 years ago as a result of an auto accident. For the past 12 years I have gone to several doctors and other health professionals to relieve myself of severe total body discomfort which also caused high blood pressure. I've been taking darvocet for those 12 years and after starting Nutrazon my body has regained its balance and I no longer need to take darvocet. I have not had morning stiffness and my doctor has reduced my blood pressure medication. Now I have my life back, no body discomfort. I have more energy, sleep well and have mental clarity. I feel happy and relaxed. Along with that, I get my product free as a result of sharing the product and opportunity with others and have made money too!**

**Thank you."**

**"My name is David. I live in El Dorado, Kansas. I am 56 years old, a husband, father, grandfather and fly fisherman. I have been suffering from severe joint stiffness for a couple of years. The doctor and Rheumatologist diagnosed my inflammation and discomfort as Osteoarthritis. I was unable to get up or down, pick up my grandchildren or even my coffee cup without severe discomfort. I simply could not do the simple things I love and want to do. I tried many traditional treatments and anti-inflammatory medications including a month of physical therapy to try to get my hands flexible enough to close. Nothing worked very well.**

**After taking the Nutrazon demonstration that evening, I noticed a marked decrease in the inflammation and discomfort in my hands. After a second demo the decrease in discomfort and swelling was better yet. I purchased a bottle. Within the week, I could once again move normal and there was almost no discomfort. I am sleeping better, able to pick up my grandchildren and even enjoy fly fishing again.**

**I have to say, "thank you Nutrazon", for giving me my quality of life back and for the opportunity to help others."**

**"I'm Jan Watts from Kansas and I'm a former radio announcer.**

**In December of 2008, I found out I had high blood sugar and my blood pressure was running high also. A dear friend came by my house and gave me a sample of Nutrazon.**

**She did the balance test on me and I was amazed! I became a distributor and bought a case of Nutrazon.**

**At the time, I was going to the doctor daily to check my blood pressure. Within one week, it was down to normal.**

**Before taking Nutrazon, I slept in late and took a nap every afternoon. I could barely watch my grandchildren for a couple hours without feeling exhausted. Today I watch them several times a week for 8 to 10 hours.**

**I also had trouble going to sleep at night. Now I go to sleep quickly and wake up refreshed.**

**My blood sugar levels have improved so much that my doctor said he doesn't need to see me for 6 months.**

**I'm also able to ride my bicycle again!**

**Thank you Nutrazon"**

**Hi, this is Paula from Maryland. I was the sole caregiver to my bedridden mother for the last four years until January 2009. I developed extreme discomfort in my neck, back and legs. My hands were swollen, there were knots on my knuckles, and I could not form my right hand into a complete fist.**

**Then I started taking Nutrazon on May 1, 2009, and I immediately experienced calmness and mental clarity. Within three days all discomfort was gone from my body. Within a week, the swelling was gone and I could form a fist. The knots have almost disappeared. After taking Nutrazon, I can place the palms of my hands flat on the floor without bending my knees. I am also noticing changes in my hair, skin and eyesight. I can't remember ever feeling this good. Nutrazon gave me my life back, and I am stress free. I never want to be without it.**

**Thank you Nutrazon**

**Hi, my name is Sharon and I'm from Iowa...**

**I have had Fibromyalgia for the past fifteen years. I had good days and bad days, however, two months prior to being introduced to Nutrazon the pain became almost unbearable. I had to have heated corn bags wrapped around my neck and my back. I was constantly fatigued...I could have slept 24/7. Nobody really knew how bad I felt. Then I was introduced to Nutrazon and two days after my first serving I was like a new woman with my discomfort level down 50%.**

**I joined in April and in June my husband and I took a 4800 mile road trip to visit family and friends and to promote Nutrazon. Everyone in my family is amazed at the difference in me....they called me the "energizer bunny". It is now three months since I started Nutrazon and my discomfort is generally 90% or more gone...including the brain fog. I am willing to bet that within a few more months my symptoms will be totally gone.**

**I have tried almost everything there is out there and nothing ever helped.**

**Thank you so much for Nutrazon...you have given me my life back.**

**"Hi, my name is Jim Redner and I live in Carl Junction, MO. Approximately nine months ago I started taking Nutrazon. I took it to my kidney doctor to make sure it**

**was ok to take the product with my kidney problems. He said it was just a food supplement, which meant that it was basically all nutrition which would not hurt my kidneys and that he and his colleagues were discussing the option of nutrition to help my kidneys. I am also diabetic which adds to my kidney problems. Prior to taking Nutrazon, my kidney function was at 45% and we were looking at the need for dialysis. My diabetes has already caused me to loose feeling in my legs from my knees down and it has started attacking my arms and hands with nerve damage loosing all feeling. I have also had eleven eye surgery's so far and have had new lenses put into my eyes.**

**I started taking Nutrazon as directed and within the first three months my kidney function increased to 54%. Over the next three months my kidney function went to 78%. My doctor and I were very excited about the results and he asked me to come back in six months to get some additional blood work to see how I was doing. My doctor was so excited he put three of his other patients on Nutrazon.**

**On February 4, 2010, I went back to see my doctor and my kidney function has increased to over 81%. My doctor told me that the three patients he had put on Nutrazon all were having positive results. He has now decided to put a number of his patients on Nutrazon, including some that are on dialysis.**

**Nutrazon has definitely improved my quality of life, supporting healthy kidney function as well as my eyesight which is almost at 20/20 vision again.**

**Thank you so much for Nutrazon...you have given me my life back."**

**"Hi, This is Linda Cox from Marana, AZ. I have been in the health and wellness field for over 22 years. Since I've been on Nutrazon... these have been my results.**

**I am experiencing clearer vision. I have more balanced energy with no lulls or feeling drained. My recovery rate after exercising is much faster. I am getting the best deep sleep in fewer hours and I feel really good when I wake up!**

**But what excites me the most is my new found slimmer self! My food cravings are gone and I am now making healthier food choices... effortlessly and I actually enjoy exercising. I love it! As you can see... I am really excited about this product!**

**Thank you Nutrazon for giving me a new lease on life! "**

**"Hello, I am Rhelda Nye from Oklahoma City. I am retired, working from home. Before Nutrazon, I was having hot flashes all the time, and since taking Nutrazon,**

**the hot flashes keep getting less and less and do not seem like a hot flash anymore.**

**I also had a few allergy issues and those are gone also. My hair has more body and looks healthier.**

**Thank You Nutrazon."**

**My blood sugar levels have improved so much that my doctor said he doesn't need to see me for 6 months.**

**I'm also able to ride my bicycle again!**

**Thank you Nutrazon"**

**"Hi, my name is Janice Gilligan. At 40 years old, I was diagnosed with the auto-immune disease Lupus, as well as Fibromyalgia, bursitis and rheumatoid arthritis. Over the last nine years, I have seen my health decline dramatically. The chronic pain had pretty much consumed my life and left me feeling depressed and all alone, until recently.**

**On May 18, 2009, when I swallowed my first ounce of Nutrazon I felt a strange sensation in my head, like some sort of electrical charge. Within a day's time, I began to experience an increase in energy and strength. It's truly amazing! I can't believe what I am getting done without any effort at all. My mind is intensely alert and fully focused. For the first time in my life, I am getting to places on time or even early. My memory and recall is improving with every thought, it feels as if my brain is being rewired each time I drink the product.**

**Now here is the most remarkable change of all for me; I do not have any pain, soreness or inflammation anywhere in my entire body. For the last three weeks, I have been symptom-free of any of the signs associated with the diseases of Lupus and R.A. My Mom says, "Look at your eyes, they are sparkling and shining". The truth is that you can no longer see my pain being reflected through my eyes. I not only feel so much better but I also feel a deep sense of calm and peace. It is remarkable to me that the body knows how to repair, restore and heal itself when the conditions are corrected.**

**I never would have thought that I would feel so happy and healthy in the year of my 50th birthday. No More Bad Days, Yeah!!**

**Thank you Nutrazon"**

**"I went from a size 12 to a size 8 in 4 weeks with no dieting"**

**As a hairdresser for over 30 years, Nutrazon has enhanced not only my physical condition, but my business as a salon owner as well.**

**I went from a size 12 to a size 8 in 4 weeks with no dieting. Medically, asthma, carpal tunnel syndrome, and allergies dissipated in 1 week. My daily body aches and sleepless nights were gone within 3 days. My energy level is very high and my sense of well being is wonderful.**

**Incorporating Nutrazon into my business was very easy. My clients began to notice these changes, as well as my hair growing and looking healthier. They began noticing my skin glowing, and I look younger. Having a professional relationship with my clients allows me to hear about their problems. Their**

physical and medical problems have been helped by Nutrazon. At present I have about 50 to 60 clients using the product. My monthly income has increased by \$1000.00 in only 12 weeks. Thank You Nutrazon.

- Carol M, MO

"he hasn't felt this good in 18 years"

My father, Johnny Wilson is 68 years old. He has diabetes, taking 2 shots a day, and a really bad knee. He is pretty stubborn, so when I started my mother on Nutrazon I really didn't think he would take some. My mom had a real hard time with her arthritis and has a steel plate in her leg. I told her the first dose to take 3 ounces and the next morning she was walking up her drive way at 5:30 in the morning, when usually it takes her an hour just to get up and get around. She could open and close her hands all the way for the first time in years.

When my dad saw what it was doing for her he thought he would try some. So, mom gave him 3 ounces for 3 days and he got out of bed that third morning and told me he felt like he could do back flips. He went to the doctor about 5 days after taking the product, his blood sugar used to run 289. The doctor was shocked when he tested his sugar. It was 114!!! His doctor took him off his shots and he is now on pills. With Nutrazon and his pill his blood sugar is 104. He said he hasn't felt this good in 18 years, that was when he found out he had diabetes and nothing has been able to regulate his blood sugar, til now.

- Crystal F, MO

"my back spasms are gone"

As a personal fitness trainer with over 25 yrs of experience in the industry, I am approached all the time about supplement products. I was introduced to Nutrazon by a friend, ordered a case and began taking it every morning before I hit the gym. I noticed everyday that immediately after taking it I felt more alive, and focused. During my workouts, I had not felt any different just myself only BETTER.

After using Nutrazon for just 4 weeks, I noticed that my back spasms are gone, and my recovery after a heavy weight lift is much quicker. This product has definitely increased my ability to get better training sessions and overall sense of well being.

**- Teresa H, MO**

**"lost 23 lbs in 30 days"**

**I've lost 23 lbs in 30 days, and have much more energy and feel better than ever! I'm a mother of 3, and have a renewed lease on life, thanks to Nutrazon, try it!**

**- Carol F, CA**

**"I have energy like I had in my 20's"**

**I'm 53yrs old, and have had Diabetes with the need to take insulin for years, after taking Nutrazon for 2 ½ months, I am completely off it, and my doctors are amazed. I have energy like I had in my 20's, my skin is softer, and people are noticing and saying I look younger.**

**- Laura L, KY**

**"my blood sugar was reduced"**

**I have experienced a drastic reduction in my blood-sugar count since taking Nutrazon. It's simple; I'm a diabetic taking my prescribed dosage of Metformin and Glyburide. My fasting-blood-count has been above 200 for years, after using just one month; my blood sugar was reduced to 110 for the first time in 5 years. Don't take my word for it, if you're a Diabetic, try it for yourself.**

**- Bill S, CA**

**"a significant improvement in my well-being"**

**I have gotten cold sores on my lips since I was a teenager. Though they are not a serious problem, they are unsightly and bothersome. Over the years I have tried many pills and creams and the only thing that ever helped was a prescription cream that, for me, has the side effect of pounding headaches.**

**Since taking Nutrazon, when the cold sores start up they quickly disappear without the long healing process I needed before. If I have to use any of the**

prescription cream, only a small amount is needed. This is not a big health issue, but a significant improvement in my well-being.

- Bob P, CA

"the fibro symptoms have improved"

Diagnosed with fibromyalgia May 2002, I had so much pain and soreness in my arms and wrists I could hardly bathe myself and get dressed. The Rheumatology Doctor told me there is no medical cure for Fibro. Then I started taking Nutrazon and was starting to sleep better, and having less digestive problems. After taking Nutrazon for 3 1/2 months the fibro symptoms have improved about 90%.

- Ruth G, AR

"my blood sugar dropped"

For two years I have been diagnosed as a Type-Two diabetic. At times, my blood sugar runs in excess of 300. I started taking Nutrazon four months ago. Within 30 days, my blood sugar had dropped to 127. At that point, I stopped taking prescription medication and have not taken any since. You can find out what Nutrazon will do for you simply by trying your own thirty day supply.

- Russell E, NC

"a dramatic increase in my sex drive"

I am 50 years old and going through menopause. After 30 days of taking Nutrazon, I have noticed that my skin has gotten softer. I have also experienced a dramatic increase in my sex drive. I Love Nutrazon and so does my boyfriend!

- Judi A, CA

"I started sleeping through the night"

I have "Sleep Apnea" and have been using a sleep machine for about fifteen years. I tried several prescription sleeping medications, and some over-the-counter, but none of them worked. I was introduced to "Nutrazon", my husband

**and I tried it, immediately I started sleeping through the night and getting plenty of rest.**

**- Mary J G, AR**

**"I am enjoying a pain-free life"**

**For years I suffered with a severe menstrual cycle. It was so severe that I could not leave the house for at least two days out of the month. Today I am enjoying a pain-free life because of Nutrazon. This product really works!**

**- Joyce M, PA**
